Work Statement

This contract has been entered into for the purpose of providing a drop-out prevention program for the students of Havana High School. The contract begins July 1, 2019 and will terminate on June 30, 2020, but may be extended for two additional years. The funding amount is \$45,174.00. The enrollment goal is 20-30 students.

To participate students must meet the eligibility criteria for in-school youth as defined in the Workforce Innovation and Opportunity Act. The program staff will liaison with the Career Link Career Planner(s) to ensure the goals of the program and WIOA Youth Services are achieved. Students will be Juniors and Seniors.

This contract is a Cost Reimbursement type wherein the Contractor can expend and incur costs as they occur and for which payment will be made by Career Link on the submission of appropriate documentation on a monthly basis. All costs must be relevant and attributable to the duties and responsibilities under this contract. See further information in the Terms and Conditions under Cost Controls.

Because the success of this program depends, in part, on the coordination of the Contractor and Career Link, both parties agree to be available for meetings, to contact the other party when problems occur and generally maintain open lines of communication. A participant will not be terminated by either party to this contract without first notifying the other party.

Performance Outcomes

The dropout prevention program expects at minimum to have:

1. Success rate for obtaining a High School diploma – 70%;
2. Success rate for increasing literacy/numeracy levels – 80%
3. Success rate for Work Experience/OJT participation – 50%; and
4. Success rate for employment or post-secondary educational training – 70%.

Program Design

The Contractor will provide an intensive education and employment skills program for at-risk students. The dropout prevention program will serve students, ages 16-24, that have been identified by the school district as at-risk, have a deficiency in literacy or numeracy, and are economically disadvantaged. Students will become self-sufficient by receiving education and workforce preparation needed to succeed through four basic goals:

1. Successfully obtain a high school diploma;
2. Increased literacy or numeracy achievement by at least one educational functioning level;
3. Provide 50% of students with Work Experience or On-the-Job Training opportunity, and
4. Obtain employment or attend post-secondary training after completion.

Havana High School's Careers Program involves two classes: Careers Exploration I and Careers Exploration II. Students receive one high school credit hour per year for each course. In these classes, the students learn skills to help them be more successful in life. Topics such as goal

setting and achieving, accountability, interpersonal skills, money management, job acquisition, career planning, and college preparation are covered. Havana High School will hire a part-time instructor along with a paraprofessional. The paraprofessional is available the entire day to assist students with tutoring/mentoring and to assist the instructor.

Math and reading are emphasized through a variety of activities. Reading activities include reading and discussing self-improvement books, newspapers, instructor selected articles, and research projects. Math skills are developed using real world applications like balancing a check book, figuring an interest rate, budgeting, determining area, comparison shopping, etc.

The Careers Program classes will focus on goal setting, financial literacy, accountability, responsibility, interpersonal skills, and career exploration, subjects vital for at-risk students. Math and reading will be emphasized through a variety of activities. Reading activities will include reading and discussing self-improvement books, newspapers, instructor selected articles, and research projects. Math skills will be developed using real world applications like balancing a checkbook, figuring an interest rate, budgeting, determining area, comparison-shopping, etc.

Staff identify students who require special education and a list of the accommodations these students require is given to every teacher at the start of the year. These students attend resource classes to get additional support during their study time.

Leadership Experience

The Careers Program will continue to support the students' Careers Club. The Careers Club, established in 2014, determines what work sites and schools students will visit on field trips. The Club assists the Havana School & Park Districts in improving and maintaining buildings and grounds. The Careers Club will continue to operate the school's recycling program.

Careers students will attend field trips, once a month is possible, during the school year. Possible field trips planned include, but are not limited to career fairs; Midwest Technical Institute; Spoon River College; St. John's College of Nursing; Western Illinois University; McDonough County Hospital; Havana City Hall; Excel Foundry & Machine; and Illinois Central College.

Supportive Services

Supportive Services needs that are identified should be brought to the attention of the Career Link staff who will determine the need and allowability of providing assistance.

Follow-Up

Follow-up will be conducted by the Program Coordinator and/or the Career Coach for a period of one year following termination from active participation. This follow-up may be augmented by contact from Career Link staff. Follow-up may include any of the following areas:

- Assistance in securing better paying jobs, career development and further education
- Tracking the progress of youth with Post –Secondary plans, goals and objectives
- Tracking the progress of youth in employment after training
- Assist students with overcoming barriers through verbal support and guidance

Work Component

At least 50 percent of the students in the program will be placed in Work Experience or On-the-Job Training sponsored by Career Link. Students can participate in these programs either on part time or full time bases throughout the school year and/or summer. Basic arrangements will be made by the Career Link Career Planner. The program staff will assist in locating appropriate placements for each student in the local community. The student will receive assistance with resume writing, interviewing skills, and ongoing support services while taking part of these programs.

Eligibility for Services

Extremely low academic performers will **not** be appropriate for program enrollment. Low academic performers needs would **not** be best met through this program, but through other school services. Students with a 504 Plan or an IEP may be appropriate, but great care should be taken if the deficiency is primarily related to a cognitive learning disability.

School personnel will be asked to identify potential participants. In addition to the criteria outlined above, the student must be someone who is assessed as needing the proposed program and who can benefit from participation. The staff of Career Link will determine eligibility and together with the instructor, a decision will be made as to whether to enroll a student.

Instructor Qualifications

The instructor(s) will be hired by the sub-contractor district at the appropriate pay grade based on the salary schedule on a ten month contract and reduced if the instructor is part-time.

The instructor(s) is a key factor in the success of the program. When schools select and hire an instructor they are asked to consider the following attributes:

- The instructor should be someone who relates well with at-risk students, cares about them and believes in their ability to succeed;
- The instructor should be someone who works well with other instructors;
- The instructor should be knowledgeable in the subject matter areas included in the curriculum;
- The instructor should demonstrate a willingness to be responsible for someone else's growth;
- The instructor should demonstrate the ability to be flexible;
- The instructor should have an ability to share credit; and
- The instructor needs an appropriate blend of authority and relaxed manner.

The Jobs for Veterans Act (Public Law 107-288) requires recipients to provide priority of service to veterans and spouses of certain veterans for the receipt of employment, training, and placement services in any job training program directly funded, in whole or in part, by DOL. The regulations implementing this priority of service can be found at 20 CFR part 1010. In circumstances where a grant recipient must choose between two qualified candidates for a service, one of whom is a veteran or eligible spouse, the veterans priority of service provisions require that the grant recipient give the veteran or eligible spouse priority of service by first providing him or her that service. To obtain priority of service, a veteran or spouse must meet the program's eligibility requirements. Recipients must comply with DOL guidance on veterans' priority. ETA's Training and Employment Guidance Letter (TEGL) No. 10-09 (issued November 10, 2009) provides guidance on implementing priority of service for veterans and eligible spouses in all qualified job training programs funded in whole or in part by DOL. TEGL No. 10-09 is available at http://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=2816.
